Jiameng Lai

School of Geography and Ocean Science, Nanjing University

E-mail: njuljm@foxmail.com • Homepage: https://jiamenglai.github.io/

Education

M.S. of Cartography and Geographic Information Science, Nanjing University   2017.09-2020.07 (expected)

Overall GPA: 4.48/5.0   Major GPA: 4.57/5.0

B.S. of Geographic Information Science, Nanjing University   2013.09-2017.07

Overall GPA: 4.46/5.0   Major GPA: 4.48/5.0

Research Interests

- Urbanization; Remote sensing; Urban environment; Land use and land cover change; Land-atmospheric interaction.

Publications (* denotes corresponding author)

Journal articles, In Preparation/Under Review

1. **Lai, J.**, Zhan, W.*, Voogt, J., Quan, J., Huang, F., Zhou, J., Bechtel, B., Hu, L., Wang, K., Cao, C., and Lee, X. Meteorological controls on daily variations of nighttime surface urban heat islands. *Remote Sensing of Environment*. [Revised and under the 3rd round of review]

2. **Lai, J.**, Zhan, W.*, Quan, J., Bechtel, B., Wang, K., Zhou, J., Huang, F., Chakraborty, T., Liu, Z., and Lee, X. Statistical simulation of next-day nighttime surface urban heat islands. *ISPRS Journal of Photogrammetry and Remote Sensing*. [Rejected but encourage resubmission]

Grants

2018-present   **PI**, "Satellite-based attribution and prediction of spatio-temporal evolution of surface urban heat islands", funded by Jiangsu Provincial Education Department, China, **RMB 15,000***.

* Only 9 master students in Nanjing University received this funding, and I am the only one from the Geography field.

Research Experiences

- Investigation on impacts from the quality of satellite land surface temperature (LST) product on the estimation of surface urban heat islands (SUHIs) (**Paper #6**), funded by National Key R&D Program of China   2016-2018
  - ➢ Quantified the possible biases in the satellite-based SUHI estimation induced by data quality.
  - ➢ Compared the SUHI variations caused by LST quality in 86 Chinese cities within different climatic zones.

- Satellite-based investigation on the diurnal patterns of surface urban heat islands (**Paper #5**), funded by National Natural Science Foundation of China   2017-2018
  - ➢ Reconstructed the full diurnal cycle of the SUHI variations for Chinese 354 cities.
  - ➢ Identified five typical diurnal patterns of the SUHI intensity.
  - ➢ Investigated the controls from urban-rural NDVI differences on the diurnal SUHI patterns.
  - ➢ Achieved a first insight on the climatology, taxonomy, and variety of the diurnal SUHIs.

- Satellite-based attribution analysis and prediction of surface urban heat islands (**Papers #1 and #2**), funded by National Key R&D Program of China   2018-present

- ➢ Quantified the SUHI variations on the day-to-day scale for 59 Chinese cities.

- ➢ Examined the impacts from meteorological conditions on the day-to-day SUHI variations.

- ➢ Identified a larger meteorological control on the SUHI intensity in temperate than in subtropical zones.

- ➢ Proposed a simple but efficient approach to statistically simulating the next-day nighttime SUHIs.

- ● Integrated geological investigation of Mountain Lu   2015

  - ➢ Interdisciplinary field practice with professors in climatology, geology, ecology, hydrology, and soil science.

Invited Talks

- ● "Experience Sharing in Learning and Research"*. *Special Seminar of Ten-thousand Student Program of Academic Winter Camp in Jiangsu Province*, Nanjing University, China, 2019.

- ● "Meteorological Controls on Daily Variations of Nighttime Surface Urban Heat Islands under Clear-sky". *University of Electronic Science and Technology of China*, China, 2018.

- ● "Experience Sharing in Writing of Scientific and Technological Papers". *Nanjing University*, China, 2018.

* I was selected as the only student to give this speech on behalf of Nanjing University.

Conference Presentations

- ● *Joint Urban Remote Sensing Event*, Vannes, France (poster & oral)   2019

- ● *3rd Seminar on Thermal Infrared Quantitative Remote Sensing*, Qingdao, China (oral)   2019

- ● *AGU Fall Meeting*, Washington, D.C., America (poster)   2018

- ● *5th Youth Scientist Forum of Earth Science*, Nanjing, China (oral)   2018

- ● *1st International Conference on Urban Informatics*, Hong Kong, China (oral)   2017

- ● *ISPRS Geospatial week*, Wuhan, China (oral)   2017

Selected Awards

- ● National Scholarship, Nanjing University (Ranking: **1/300**)*   2018

- ● First Prize of Graduate School Scholarship, Nanjing University (Ranking: **1/300**)   2018

- ● First Grade Award, 5th Youth Scientist Forum of Earth Science (only **1** student in the Geography field)   2018

- ● Pacemaker to Excellent Postgraduate Student, Nanjing University (**1 out of 100**)   2018

- ● Excellent Student, Nanjing University (**3 out of 66)**   2015

* I am the only student from Grade 2 rather than Grade 3 to receive this scholarship.

Journal Reviewer

- ● Sustainable Cities and Society; Science of the Total Environment; International Journal of Digital Earth.

Skills

- ● Computer: Skilled in C, C++, python, MATLAB, GitHub, ArcGIS, Origin Pro, Excel, and ENVI.
